

Cleanox 1.0: The Purist

10 YEARS REUTER
jubilee price
800€
LIMITED EDITION

Optional: marking set

Cleaning of TIG seams, dark marking:

The Cleanox 1.0 is a pure AC device with 800 VA power and only intended for cleaning of welding seams using the carbon fibre brush. Simple operation makes the device ideal for building sites and pipe installations.

The design of the Cleanox 1.0 is specially made for the use of our new carbon performance brushes in size „L“ or „XL“ and works with powerful 80A continuous current at 100% duty-cycle and pulse currents of up to 120A.

The weight of 5.2 kg was significantly reduced compared to the previous series by using plastic and aluminium.

The optional marking set can be used to apply dark labelling, e.g. batch numbers or name plates.

Cleanox 1.0: The Purist

10 YEARS REUTER
